The Laws of Bill

The Program for Infants and Young Children, Inc (PIC), provides eligible children and their families with support services for young children.

Services Provided by Families free of charge

The Federal Part C Regulation 303.521 (b) states that the following actions shall be taken or given to families, without cost:

- review
- Research/Research
- The organization of family services
- the development or development of the IFSP

The authorization to pay for insurance

The PIC will ask parents, for their permission, to charge Medicaid or any other insurance company for services that can be charged, provided by licensed workers, such as people who re-enforce body parts in exercise activities, people who help maintain a person's continued ability to do so, the daily activities, or the person who helps someone to recover the speech. When parents sign the Bill, they give PIC permission to charge their insurance, and parents do not pay a co-pay or deductible payment. The company will accept any payment from the insurance company, the full payment of the bill.

Therapy Services

Families do not receive a bill for any services at PIC.

Contact the PIC at 561-8060 if you have questions about the billing policy.
